

E-COURTS Presentation of the web page which will facilitate purchase for anybody interested to buy real estate and equipment

Everything on companies in bankruptcy on the web

The judge of the High Commercial Court Mario Vukelić is the idea originator of the web page where, from yesterday, information on the assets of bankrupt companies offered for sale can be found. However, yesterday judge Vukelić was not at the presentation of the web page which can be found at the Judge's Web portal, but the web page was introduced by the President of the High Commercial Court Srđan Šimac, the Minister Ana Lovrin and the President of Judge's Web and the Advisor to the Minister Dražen Komarica. Anybody interested in buying real estate and equipment will not need to carefully watch Official Gazette in the future, but will be able to find what is sold at any moment until the sale. The page also contains information on bankruptcy trustees. The list of trustees was already available at the web address of the High Commercial Court, but now it contains not only names but also other information such as education level and the list of bankruptcy procedures a trustee managed, in the case that creditors wish to select a trustee by themselves and not leave this task to the bankruptcy judge. However, by checking the list of trustees it becomes clear that many of them provided no information whatsoever, so it contains only the address and phone number. Among such trustees is the known record holder Marinko Paić, who managed numerous bankruptcies before the Commercial Court in Zagreb, but there is no such list on the web...

E-SUDOVI Predstavljena stranica koja će olakšati kupnju svim zainteresiranim za nekretnine i opremu

Na webu sve o tvrtkama u stečaju

Sudac Visokoga trgovačkog suda Mario Vukelić idejni je začetnik web stranice na kojoj se od jučer mogu naći mnogi podaci o imovini tvrtki u stečaju koja se prodaje. No, sudac Vukelić nije bio jučer na predstavljanju stranice, koja se može naći preko stranice Sudačke mreže, nego su stranicu predstavili predsjednik Visokoga trgovačkog suda Srđan Šimac, ministrica Ana Lovrin i predsjednik Sudačke mreže i ministričin savjetnik Dražen Komarica. Svi zainteresirani za kupnju nekretnina i opreme ubuduće tako neće morati pažljivo pratiti Narodne novine,

Ministrica Lovrin stiže na predstavljanje

nego će u svakom trenutku, sve do prodaje, moći doznati što se prodaje. Tu su i podaci o stečajnim upraviteljima. Lista upravitelja bila je dostupna na webu, na stranici

Visokoga trgovačkog suda, i dosad, no sad su tu ne samo imena nego i ostali podaci, od školske spreme do popisa stečajeva koje su vodili, ako vjerovnici žele sami odabrati upravitelja, ne prepuštajući taj posao stečajnom sucu. Međutim, provjerom na listi upravitelja postaje jasno da ima puno upravitelja koji o sebi nisu dali nikakve podatke, pa je tu samo adresa i broj telefona. Među tim upraviteljima je i poznati rekorder Marinko Pačić, koji je u zagrebačkom Trgovačkom sudu dobio desetke stečajeva, no na webu nema tog popisa... (S. P.)
